

FREE WEAT WEBINAR

WEAT

Wednesday, November 13, 2013

12:00noon – 1:15PM

Overcoming Operational Challenges in Non-Potable Water Reuse

PROGRAM

- ***Setting Fort Worth Reclaimed Water Rates*** - Frank Crumb, City of Fort Worth
- ***Small System Demand Issues at WCID #17*** – Will Pena, River City Engineering
- ***Distribution Water Quality*** – Frank Snyder, SAWS Recycled Water Operations Supervisor

The webinar will address common operational challenges and how Texas utilities have addressed them. Categories will include maintaining water quality, demand management, and how to establish a rate structure.
