

FREE WEAT WEBINAR

Overview of Cybersecurity Issues in W/WW Organizations

Wednesday, September 10, 2014
11:30AM – 1:00PM

In recent years, the water sector has been more prominently featured in the national cyber security dialogue. To help raise awareness in our industry of this important issue, the WEAT Safety & Security Committee will be conducting the first in a series of six webinars focused on providing practical applications for cybersecurity issues. This webinar will begin with an introduction to current Cybersecurity issues followed by a panel of industry leaders discussing the operational challenges faced by traditional IT cybersecurity approaches and ICS security perspectives.

AGENDA

- 11:30 -11:35 PM – Speaker Introductions, Host and Safety and Security Chair, Rick Hidalgo, Signature Automation
- 11:35-12:05 PM – *Cybersecurity Incidents and Emerging Threats*, Charles Egli, WaterISAC
- 12:05-12:35 PM – *Process Control System Security Guidance for the Water Sector*, Philip Gaberdiel, EMA
- 12:35 – 1:00 PM – Panel Discussion led by **Robert Durham**, Data Flow Systems
Panelists include: **Jim Shirley** – North Texas Municipal Water District, **Julie Hunt** – Trinity River Authority, **Philip Gaberdiel** – EMA Inc., and **Charles Egli**, WaterISAC
