WEAT and TNI Contemporary Laboratory Topics Conference and Expo

**Wednesday and Thursday
August 27 – 28, 2014**

**Courtyard Marriott
210 E. Stacy Rd
Allen, TX 75002**

**Presented by:
The Water Environment
Association of Texas and
The NELAC Institute**

CONTEMPORARY TOPICS LABORATORY TOPICS CONFERENCE AND EXPO AGENDA AND PROGRAM

ABOUT THE WORKSHOP

The Contemporary Laboratory Topics Conference is designed to maximize lab specific instruction over two days. Day 1 gives attendees an overview of how to prepare, learn from, understand, and use the audit information. Our Day 1 instructors, Silky and John Labie, have over 30 years of experience in the environmental testing arena. Day 2 of the conference focuses on timely laboratory topics. These hot topics cover a host of issues faced by labs. The conference closes with a panel discussion that is meant to offer real world examples and solutions. Our exhibitors will be also part of the program providing information on a host of lab technology. Register on line at www.weat.org.

WEDNESDAY, August 27	
Day 1 WORKSHOP	
7:00 - 8:00 am	Registration and Continental Breakfast
