EPA Region 6, TCEQ, Austin Water and WEAT present an ***IN-PERSON*** 19th Annual CMOM (Capacity, Management, Operation & Maintenance) Workshop

August 16, 2022, 9 AM to 4:30 PM & August 17, 2022, 8 AM to 3 PM
Austin Convention Center

BACKGROUND

Wastewater collection systems that are improperly maintained and operated can lead to sanitary sewer overflows (SSOs), a serious public health and environmental problem. The CMOM approach outlines a dynamic system management framework that encourages evaluating and prioritizing efforts to identify and correct performance problems in the collection system.

PURPOSE

This workshop will allow EPA and state regulators to come together with their municipal permit holders to discuss examples of strong CMOM practices. Presentations made at the workshop will be available for all attendees.

AUDIENCE

All municipalities or special districts that manage wastewater collection systems, as well as their operators, engineers, management professionals and consultants.

CONTINUING EDUCATION

13.5 hours of CEU wastewater credit has been requested through TCEQ. Professional Engineers will receive **15 PDH (includes ethics hour)**.

Water Environment
Association of Texas
